**LISTING OF CLAIMS:**

1. (Canceled)

2. (Previously Presented) The method as claimed in Claim 4, further including repeating said controlling data feed configurations and broadcasting data content from said feeds for each successively activated phase until said agenda terminates.

3. (Previously Presented) The method as claimed in Claim 4, wherein said data feeds comprise data audio and video feeds, said step of controlling data feed configurations associated with each phase further comprises the steps of:

checking a current agenda-phase policy; and,

combining data feeds as specified according to said current agenda-phase policy prior to broadcasting a resulting composite video and/or audio to applicable clients, whereby data feed controls are automatically activated according to an agenda phase policy associated with a new phase activation.

4. (Currently Amended) A method for conducting an online multi-speaker presentation comprising:

receiving a presentation agenda that specifies a plurality of phases, each phase having a speaker for presenting in a pre-specified order; said agenda including a policy for coordinating data feeds to one or more client devices according to an activated phase;

controlling data feed configurations associated with each phase by activating data feed controls at times associated with an active agenda phase policy; and,

broadcasting data content from said feeds associated with a current phase to one or more connected client devices, whereby many users of the on-line meeting participate according to
